

Deodorant for intense sweating with long-lasting antiperspirant efficacy, without discomfort. The action of the product is more effective at the level of the sweat glands, for an optimal protection. Also, the product significantly slows down hair growth and implicitly the need to remove it.

How to use: Apply a thin layer on clean skin. It may be used after epilation.

Not suitable for persons allergic to any of the product components! Keep away from heat, light and humidity. Keep out of sight and away from children.
