

P6NOR0156-030 **NORMACNE**

Ser Anti-imperfecțiuni cu efect de minimizare a porilor 30 ml

Serul este un dermatocosmetic exfoliant special, care combină eficiența acțiunii versatile a acizilor AHA, BHA și PHA, încapsulați sinergic în complexul Sebupore control GL-7™, alături de ingrediente regenerante (niacinamidă, inulină). Serul reduce vizibilitatea porilor și a leziunilor acneice, are efect seboreglator și netezește liniile fine.

MOD DE UTILIZARE:

Ten gras, inclusiv ten matur, ten predispus la acnee: aplicați 5–6 picături o dată pe zi, seara, pe pielea curată și complet uscată, evitând zona ochilor, apoi masați delicat.

Ten mixt: în funcție de sensibilitatea pielii, aplicați 5–6 picături de 2–3 ori pe săptămână, seara, pe pielea curată și complet uscată, evitând zona ochilor, apoi masați delicat.

Producător: **Biogened S.A.**, 99 Pojezijska Street, 91-342 Lodz, Poland. Unic importator / distribuitor în România: **Novainterm S.R.L.**, Bd. Pipera 2-XI, 077190 Voluntari, România.

EAU THERMALE

Anti-blemish, pore-minimizing serum is a special anti-blemish product that combines the effectiveness of the water-soluble form of the active acid complex synergistically with the **Sebupro control GL-7™** complex anti-inflammatory ingredients. Normacne, unlike other serums on the market, is a non-comedogenic, has a soothing effect and smooths fine lines.

► **Non-comedogenic**
► **Clinically tested**

DERMEDIK OR 01 This skin-activating natural skin desloughing active. It helps to reduce inflammation, clear comedones, reduce acne, soothe the skin, manage pigments, combat dry skin, regulate cellular activity of the skin, apply to dry skin. It acts as a water-soluble, non-comedogenic, anti-blemish, anti-inflammatory, skin-soothing, and skin-smoothing ingredients.

After application, it is recommended to use **NORMACNE** (Normacne serum) or **SPF 50+** from the **SUNBELLA** line and avoid direct exposure to UV radiation.

HYPOALLERGENIC / CLINICALLY TESTED

Serum anti-imperfections is a patent formula or a gentle combination of active ingredients, which is a natural and non-comedogenic. Anti-blemish, pore-minimizing serum synergizes with the **Sebupro control GL-7™** and the ingredients ingredients. Normacne, unlike other serums on the market, is a non-comedogenic, has a soothing effect and smooths fine lines.
