

Pasta de dinti pentru protectia zilnica a smaltului dintilor sensibili x 100ml., Active Oral Care Beauty Formulas

EAN 5012251012027

Valabilitate: 12 luni de la deschidere

Formula speciala anti-carii, cu fluor si Aloe Vera emolienta, ajuta la protectia zilnica a dintilor si gingiilor sensibile impotriva deteriorarii de cauza acida. Dintii devin sensibili atunci cand apare retractia gingivala si expunerea dentinei de sub suprafata smaltului. Fara smaltul dentar care protejeaza nervii de contactul cu alimentele sau bauturile fierbinti sau reci, poate aparea durerea acuta. In zilele noastre, dintii sunt expusi acizilor din alimente sau bauturi, care pot dizolva mineralele din smaltul dentar, acesta devenind mai usor de deteriorat.

Aceasta formula pentru protectia smaltului ajuta la protectia impotriva eroziunii acide suplimentare. Perierea regulate indeparteaza placa bacteriana si improspateaza respiratia. Contine fluor pentru a preveni formarea cariilor si a deteriorarii dintilor.

Indicatii: periatii dintii de doua ori pe zi cu pasta de dinti pentru protectia smaltului dintilor sensibili. Folositi zilnic ata interdentara.

Improspatati gura cu apa de gura. Consultati medicul stomatolog in mod regulat. Schimbati periuta de dinti la fiecare 3 luni.

Atentie: Pentru copii de 6 ani sau mai mici: aplicati pe periuta o cantitate de pasta cat un bob de mazare si supravegheati perierea dintilor pentru a nu o inghiti. In cazul administrarii de fluor din alte surse, consultati un medic/stomatolog.

Ingrediente: sorbitol, siliciu hidratat, suc din frunze de Aloe Vera, apa, glicerina, laurilsulfat de sodiu (SLS), aroma, nitrat de potasiu, tensida de cocos, carboximetilceluloză (CMC), fosfat trisodic, fluorura de sodiu, zaharina, dioxid de titan.

Contine: fluorura de sodiu 0,32% w/w (1450ppmF).

Produs Vegan.

Flacon 100 ml.

This specially formulated toothpaste with the benefit of soothing Aloe Vera is designed to care for sensitive teeth and gums and to help protect against acid wear. Teeth become sensitive when receding gums expose the dentine beneath the surface enamel. Without this enamel to protect the nerves contact with hot or cold food and drink can cause a sharp pain. Today our teeth are exposed to acids in food and drink which can dissolve the minerals in tooth enamel making it softer and more prone to wear. This enamel protect formula helps guard against further acid erosion. Regular brushing removes plaque and freshens breath. With Fluoride to fight cavities and protect against tooth decay.

DIRECTIONS: Brush twice a day replacing your usual toothpaste. Floss between teeth daily. Freshen your mouth with mouthwash. Visit your dentist regularly. Change your toothbrush every 3 months.

CAUTION: Children of 6 years and younger: use a pea-sized amount for supervised brushing to minimise swallowing. In case of intake of fluoride from other sources, consult a dentist or doctor.

INGREDIENTS: Sorbitol, Hydrated Silica, Aloe Barbadensis Leaf Juice, Aqua (Water), Glycerin, Sodium Lauryl Sulfate, Aroma (Flavour), Potassium Nitrate, Cocamidopropyl Betaine, Cellulose Gum, Trisodium Phosphate, Sodium Fluoride, Sodium Saccharin, Titanium Dioxide

CONTAINS: Sodium Fluoride 0.32% w/w (1450ppmF)
