

EVOGEN GLYCOJECT Strawberry Lemonade - supliment alimentar, conceput special pentru a accelera absorbția glicogenului și a nutrienților ,pentru construirea mușchilor în celulele musculare, pentru a îmbunătăți performanța și a alimenta creșterea și recuperarea maximă. Glicogenul ,este principala sursă de combustibil nutritiv pentru mușchii care lucrează. Se epuizează rapid în timpul antrenamentului intens, provocând o scădere dramatică a performanței atletice optime în curs de desfășurare. Complexul de nutrienți hiper-volumizator din GlycoJect ,este soluția de încărcare a carbohidraților de elită de la Evogen Nutrition înainte și după antrenament. Această formulă unică de încărcare cu carbohidrați și de transfer de nutrienți înainte și după antrenament este stimulentele perfect de performanță pentru aproape orice atlet!

Nicknamed “The Pro Creator,” Hany Rambod, 25x Olympia winning coach, has been constructing championship-winning physiques for over 30 years while using his ground-breaking FST-7® training system. Rambod prides himself on bringing only quality innovations to his customers around the world. The formulations within the Evogen Nutrition supplement line are crucial to the success of any ultra-intense training program because of his focus on growth, repair, and muscle volume.†

INTRODUCING GLYCOJECT® EVOGEN NUTRITION’S ELITE PRE-, INTRA-, OR POST-WORKOUT CARBOHYDRATE LOADING SOLUTION. Designed to hyper-load muscles with growth and performance fueling glycogen while simultaneously forcing muscle-building nutrients into muscle cells, GlycoJect helps drive replenishment and muscle volumization.†

GlycoJect contains a precisely engineered, patent-pending carbohydrate matrix designed to pass rapidly through the stomach into the bloodstream, where it is shuttled directly into muscle cells.†

SUGGESTED USE: As a dietary supplement, mix 1 scoop of GlycoJect in a shaker cup with 8-10 oz. of cold water.
FOR BEST RESULTS

- ▶ **PRE-WORKOUT:** If taking Pre-Workout, drink 1 scoop about 30 minutes prior to physical activity to ensure maximum endurance, performance & volumization.
- ▶ **INTRA-WORKOUT:** If taking Intra-Workout, sip on 1 scoop during training to sustain intensity, muscle energy and supercharge muscle size and pump.
- ▶ **POST-WORKOUT:** If taking Post-Workout, drink 1 scoop immediately following intense training to accelerate the uptake of glycogen and muscle building nutrients into muscle cells to fuel maximum growth and recovery.
