

EVOGEN® ISOJECT

Shake proteic cu îndulcitori

Produs alimentar pe bază de izolat proteic din zer

Evogen Isoject este un produs alimentar proteic obținut din **izolat din zer filtrat la rece**, destinat persoanelor active. Conține un aport ridicat de proteine, care contribuie la menținerea și dezvoltarea masei musculare, conform rolului recunoscut al proteinelor în alimentație.

Produsul este realizat printr-un proces avansat de filtrare, pentru obținerea unui izolat proteic cu grad ridicat de puritate, conținut scăzut de grăsimi și glucide și gust plăcut.

Aromă: Dubai Style Chocolate Bar

Cantitate netă: 800 g

INFORMAȚII NUTRIȚIONALE

Mărimea porției: 1 măsură (32 g) **Porții per ambalaj:** aproximativ 25

Valori nutriționale per porție (32 g): Energie 110 kcal; Grăsimi 1 g – din care acizi grași saturați 0 g; Acizi grași trans 0 g; Colesterol 15 mg; Sodiu 180 mg; Glucide 2 g – din care fibre 1 g; Zaharuri 0 g – din care zaharuri adăugate 0 g; Proteine 25 g; Vitamina D 0,1 µg; Calciu 120 mg; Fier 1 mg; Potasiu 230 mg.

Ingrediente: Izolat proteic din zer filtrat la rece, cacao procesată cu alcali, arome naturale, sare, agent de îngroșare (gumă de xantan), emulsifiant (lecitină din soia și/sau lecitină din floarea-soarelui), complex enzimatic IGNITOR™ (aminopeptidază, protează, peptidază), îndulcitori (sucraloză, acesulfam de potasiu), agent antiaglomerant (dioxid de siliciu).

Alergeni: Conține **lapte și soia**.

Mod de utilizare: Amestecați **1 măsură (32 g)** de Isoject cu **180 ml** de apă rece, lapte degresat sau băutura preferată, folosind un shaker, pahar sau blender. Amestecați bine înainte de consum. Produsul se consumă ca parte a unei diete variate și echilibrate și a unui stil de viață activ.

Condiții de păstrare: A se păstra într-un loc uscat și răcoros, ferit de lumina directă a soarelui.

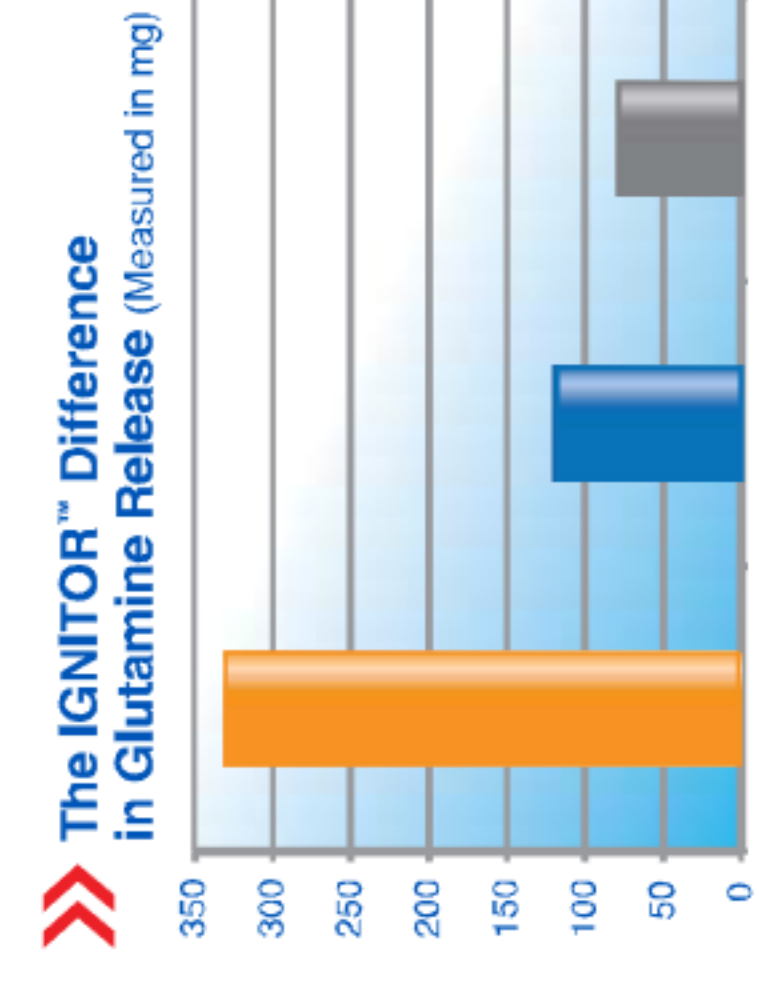

Termen de valabilitate: A se vedea pe ambalaj.

THE ISOJECT[®] DIFFERENCE—ADVANCED PROTEIN RELEASE TECHNOLOGY

When going to every extreme to create one of the most effective whey isolates in existence, you have to go to equal extremes when developing the flavor. Evogen Nutrition has done just that. Isoject is setting the standard for **GREAT TASTING 100% WHEY ISOLATE WITH ONLY 110 CALORIES PER SERVING**. It utilizes triple cold-filtered whey isolate which undergoes sensitive nano-filtration to preserve the quality of its ultra-pure whey isolate. There is zero low quality amino acid infusion.

▶ The IGNITOR[™] Difference in Glutamine Release (Measured in mg)
The amount of IGNITOR[™] in one serving of Isoject releases 200% more BCAAs than a leading enzyme from whey protein than endogenous enzymes alone.†

Evogen employs proteolytic enzyme technology to maximize protein breakdown into critical growth and repair amino acids. This specifically targets leucine, valine, isoleucine, and glutamine. It helps ensure maximum release and absorption of these key amino acids for rapid effects. **EVODEN NUTRITION WAS ONE OF THE FIRST TO BRING THIS BREAKTHROUGH IGNITOR[™] ENZYME TECHNOLOGY TO MARKET.** It supports one's ability to rapidly breakdown protein, facilitate repair and recovery while potentially reducing stomach discomfort. All in all, Evogen Nutrition is continuing to redefine the standards when it comes to an incredible tasting ultra-pure whey protein isolate.†

Nicknamed "The Pro Creator," Hany Rambod, 25X Olympia winning coach, has been constructing championship-winning physiques for over 30 years while using his ground-breaking FSI-7 training system. Rambod prides himself on bringing only quality innovations to his customers around the world. The formulations within the Evogen Nutrition supplement line are crucial to the success of any ultra-intense training program because of his focus on growth, repair, and muscle volume.†
