Product Description

Bambo Nature is not only committed to providing a comfortable, absorbent diaper for your child, but also to leaving the world a better place. Based on Nordic traditions for sustainability, we produce diapers with ecofriendly manufacturing processes, while ensuring they are free of dangerous chemicals and perfumes to minimize the risk of allergy and diaper rash. Our environmental commitment also extend to our diaper packaging, which consists of 30% post-consumer recycled plastic. The recycled materials originate from consumer household plastic waste, that is carefully cleaned and sorted by grade. The packaging should be recycled with other plastic waste. Our Bambo Nature diaper is FSC, Nordic Swan, EU Ecolabel (CE marked products excepted) and Asthma Allergy labelled. Above that, it is dermatologically tested. Bambo Nature – Because you care.

Instructions for use/application

Is your child ready to start potty training? Bambo Nature disposable Pants can help your child make a comfortable transition from baby diapers to no

diapers at their own pace. The pants are thin and easy for little hands to pull up and down, even when they're in a hurry. Put them on and off as usual underwear.

Nordic Swan Ecolabel is an official Scandinavian environmental label. Products with the Nordic Swan Ecolabel meet stringent environmental requirements with regard to raw material, production, use, documentation, and safety.

FSC™ (Forest Stewardship Council) is an international non-governmental organization dedicated to the promotion of responsible forest management worldwide. FSC™-certified products are made from raw materials from well-managed forests and responsible sources. The label's traceability and integrity are upheld through stringent control measures, and by choosing FSC™-certified products, you help take care of forests and the people and wildlife that call them home. For more information, go to www.fsc.org.

OEKO-TEX®, also known as "Confidence in Textiles", is a health and environmental label used worldwide. The certificate ensures that textiles do not contain substances that are harmful to health or the environment.

The EU Ecolabel, also known as the EU Flower, is the official environmental label in Europe. Products with the EU Ecolabel meet stringent environmental requirements with regard to raw material, production, use, documentation, and safety.

Asthma Allergy Nordic is a proof of the product being recommended by the experts from Asthma-Allergy Nordic. Products with the label do not contain perfume, and they pose a minimal risk of skin allergy development.

Products with the Vegan Society certificate do not contain animal substances and are not tested on animals.

The product is fully breathable for the comfort of the user; also during long-time use. Helps maintain skin integrity.

Your guarantee that our products have been tested for ingredients which can potentially cause skin irritation. Tests conducted by an independent third-party laboratory.

Effective leakage barriers, both visible and invisible and latex-free elastics ensure a snug fit, which reduces the risk of leakages.

Wetness indicator is a liquid-sensitive strip that changes color or fades out indicating when it is time to change the product.

The bag is 30% PCR, which means made from plastic materials used by consumers. This will allow us to reduce our plastic waste and to help take care of the environment.
