EN Multi-performance Face cream.

Hydrates and protects sensitive, dry, dehydrated skin. Promotes the recovery of the hydric balance of the epidermis and prevents skin aging due to sun exposure.

Solar Filters provide protection against UV rays. **Tealine®** is a compound extracted from green, red and white tea leaves. Has a protective role at cellular level, efficiently fighting against free radicals. **Karite Butter** has a hydrating and nourishing effect on the skin. **Herculane Thermal Spring Water** has a soothing effect.

Usage: Apply in the morning and before sun exposure on face, neck and neckline.

FR Multi-performance Crème pour

le visage. Hydrate et protège les peaux sensibles, sèches, déshydratées. Favorise le rétablissement de l'équilibre hydrique de l'épiderme et prévient le vieillissement cutané dû à l'exposition au soleil.

Les Filtres Solaires offrent une protection contre les rayons UV. **Le Tealine®** est un composé extrait des feuilles de thé vert, rouge et blanc. Il exerce un rôle protecteur au niveau cellulaire en luttant efficacement contre les radicaux libres. **Le Beurre de Karité** a un effet hydratant et nourrissant sur la peau. **L'Eau Thermale Herculane** a un effet apaisant. **Utilisation:** Appliquer le matin et avant l'exposition au soleil sur le visage, le cou et le décolleté.

RO Multi-performance Cremă pentru față.

Hidratează și protejează pielea sensibilă, uscată, deshidratată. Asigură refacerea echilibrului hidric al epidermei și previne îmbătrânirea cutanată determinată de expunerea solară. **Filtrele Solare** asigură protecție împotriva radiațiilor UV. **Tealine®** este un compus extras din frunze de ceai verde, roșu și de ceai alb, cu rol de protecție la nivel celular, luptând eficient împotriva radicalilor liberi. **Untul de Karité** are efect hidratant și hrănitor asupra pielii. **Apa Termală Herculane** are efect calmant. **Utilizare:** Se aplică dimineața și înainte de expunerea la soare pe față, gât și decolteu.
